WARNING: Use of steroids to increase strength or growth can cause serious health problems. Steroids can keep teenagers from growing to their full height; they can also cause heart disease, stroke, and damage liver function. Men and women using steroids may develop fertility problems, personality changes, and acne. Men can also experience premature balding and development of breast tissue. These and other health hazards are in addition to the civil and criminal penalties for unauthorized sale, use, or exchange of anabolic steroids.
